Catalogue

Monitor

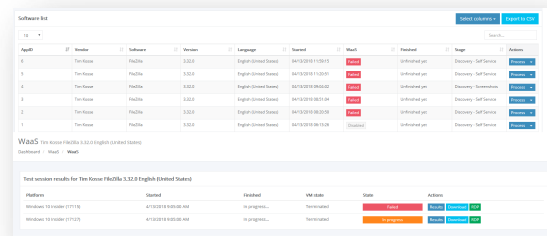

Test

Maintain

Apptimized Monitor continually analyses multiple sources of industry data and sends automatic notifications when any application in your portfolio has been updated by its vendor. You can then request an updated customized package for immediate deployment

- ❖ Low monthly user fee - USD\$190 per user / month
- ❖ No longer spend time monitoring most used software
- ❖ Over 250 vendors monitored
- ❖ Manage from anywhere, anytime via any browser
- ❖ Secure and scalable – hosted on MS Azure
- ❖ Stop deploying out-of-date or unsupported software
- ❖ Personalised – receive notification about applications that matter to you
- ❖ Configure the catalogue to include only those applications that are relevant to you
- ❖ Includes all major global vendors and the world's most deployed software
- ❖ Integrated with Apptimized Packaging Service
